IRAKOZE BELINDA

JUNIOR FULL-STACK SOFTWARE ENGINEER

Python | Django REST Framework | React | TypeScript

Email: belindairakoze37@email.com | Phone: +256761714327
Location: Kampala, Uganda
LinkedIn: linkedin.com/in/irakoze-belinda
GitHub: github.com/belindairakoze37

PROFESSIONAL SUMMARY

Software Engineering apprentice at Refactory Academy with hands-on experience building web applications, REST APIs, and application features through individual and collaborative projects. Familiar with Python, Django, Django REST Framework, React, TypeScript

database design, API testing, and Git. Interested in developing reliable, user-focused software across frontend and backend systems. Seeking a junior full-stack or software engineering opportunity.

TECHNICAL SKILLS

Programming: Python, Typescript,SQL, HTML, CSS
Backend: Django, Django REST Framework, REST API development
Frontend and mobile: React, Tailwind CSS
Databases: SQLite; PostgreSQL
Tools: Git, GitHub, Pytest, Postman, Swagger/OpenAPI
Concepts: CRUD, authentication, authorization, JWT, relational databases, API testing

PROJECTS

AgriSmart Platform
Agricultural Technology Platform

GitHub: github.com/belindairakoze37/AgriSmart-Platform

- Developed an agricultural platform designed to support farmers with market information, agricultural advisory services, and marketplace functionality.
- Worked with a Django REST Framework backend and React web and React Native mobile applications.
- Contributed to mobile features including authentication, market prices, advisory chat, marketplace browsing, and profile functionality.
- Used TypeScript and development tools to validate application code.

Technologies: Django REST Framework, React, React Native, Expo, TypeScript, Git.

GreenHill Schools — Incident and Service Management Platform (ISMP)
Backend Contributor , Team Project

Contributed to Django REST API development for incident tracking and service management.

- Worked on authenticated incident-history functionality and API behavior involving ticket data, filtering, pagination, and access control.
- Wrote and maintained automated API tests using Pytest.
- Collaborated through Git branches and worked with API schema documentation.

Technologies: Python, Django REST Framework, Pytest, Git, OpenAPI.

Nyondo General Hardware Management System
Individual Django Project

GitHub: github.com/belindairakoze37/Nyondo-General-Hardware-LTD-Project

Developed a Django-based web application for a general hardware business.

- Worked with Django models, views, templates, and database migrations.
- Used Git for version control during development.

Technologies: Python, Django, SQLite, HTML, CSS, Git .

EDUCATION

Refactory Academy
Software Engineering Apprenticeship / Training Program
Expected completion: December 2026

Uganda Advanced Certificate of Education (UACE)
Completed in 2023

Additional Certification: Certificate in Software Engineering(CSE)
Completed 2026

ADDITIONAL INFORMATION

Language: English

Professional interests: Full-stack development, backend engineering, API development, and practical software solutions.
